

## City of Brea

May 3, 2021

The Honorable Dianne Feinstein  
U.S. Senate  
331 Hart Senate Office Bldg.  
Washington, D.C. 20510

Dear Senator Feinstein:

I write in support of the Orange County Sanitation District's (OC San) Community Project Assistance Request for the Headworks Rehabilitation Project and to seek your support of \$10,000,000 in federal funding as part of the Interior and Environment Appropriations Bill, Fiscal Year 2022.

As the Mayor of the City of Brea, this request will directly support our shared effort to improve the reliability of our regional wastewater treatment system and deliver high-quality water for the Groundwater Replenishment System to drought proof our region. The requested assistance will support the construction of this vital conveyance system that brings in approximately 120 million gallons of wastewater through six major truck sewers that combines, measures, and removes debris and grit that otherwise could end up in the ocean.

The Headworks Rehabilitation Project is ideally suited to receive federal assistance. It is my understanding that the Senate recognized the significant importance of water recycling and improved water quality most recently, when it passed the Water and Wastewater Infrastructure Assistance Act. This project directly supports the goals of this bill.

For these reasons and the justification provided to your office through the Community Assistance Project Request portal, I wholeheartedly support the requested assistance and look forward to your support. If you or your staff require additional information, please contact Mr. Jim Herberg, General Manager, OC San at (714) 593-7110 or via email at [jherberg@ocsan.gov](mailto:jherberg@ocsan.gov).

Sincerely,

Steven Vargas  
Mayor  
City of Brea

Washington, D.C. 20510

Dear Senator Feinstein:

I write in support of the Orange County Sanitation District's (OC San) Community Project Assistance Request for the Headworks Rehabilitation Project and to seek your support of \$10,000,000 in federal funding as part of the Interior and Environment Appropriations Bill (Fiscal Year 2022).

This request will directly support the collaborative effort of so many Southern California agencies who strive to improve the reliability of our regional wastewater treatment system and deliver high quality water for the Groundwater Replenishment System. Funding will support the construction of this vital conveyance system that brings in approximately 120 million gallons of wastewater through six major truck sewers that combines, measures and removes debris and grit that otherwise could end up in the ocean.

It is our understanding that the Senate recognized the significant importance of water recycling and improved water quality most recently when it passed the Water and Wastewater Infrastructure Assistance Act. This project directly supports the goals of this bill and will help protect the region from drought.

For these reasons, the City of La Habra supports OC San's request and we look forward to your support. If you or your staff require additional information, please contact Mr. Jim Herberg, OC San General Manager, at (714) 593-7110 or via email at [jherberg@ocsan.gov](mailto:jherberg@ocsan.gov).

Sincerely,

Rose Espinoza  
Mayor
