SUBJECT: OC San Sewer Project and Gisler Avenue Access

Dear Property Owner/Tenant:

Today, members of the Orange County Sanitation District (OC San) project team visited your property with the intention of reaching you to discuss the upcoming regional Costa Mesa Sewer Rehab Along the I-405 project. We would like to discuss Gisler Avenue access impacts before construction is scheduled to occur from approximately late August – October 2024.

Construction activity will require the installation of temporary above ground 12-inch diameter piping along the residential fence line on Gisler Avenue to reroute sewer flows and maintain service to the community. We need to know if you use direct access to Gisler Avenue from your residence. You will not be able to move any vehicles, RV's, boats, etc. once the piping is installed.

If this upcoming work will be a direct impact to you, please contact us at ConstructionHotline@ocsan.gov or (714) 378-2965 as soon as possible. We will work with you and the contractor to reasonably mitigate impacts. We appreciate your prompt response by **Friday, August 16.**

OC San provides regional wastewater collection, treatment, and recycling services for approximately 2.6 million people in central and northwest Orange County. The Costa Mesa Sewer Rehab Along the 405 is part of OC San's regional effort to upgrade Orange County's wastewater infrastructure to ensure system reliability.

More information about the project can be found at scanning the QR code or visiting www.ocsan.gov/alongthe405. We encourage you to sign up for email and/or text alerts to stay informed of the most current updates.

Sincerely,

Kelly Newell
